EMPLOYER INFORMATION

Thank you for your interest in Access Recognised Training's flexible work-based Certificate III Commercial Cookery Australian Apprenticeship pathway.

If you choose Access Recognised Training (ACCESS) as your preferred Registered Training Organisation (RTO), you and your Australian Apprentice, will be undertaking one of the most up-to-date, industry relevant training programs available. Together, we will work towards empowering your Australian Apprentice with the knowledge, practical skills and experience that is necessary to be successful in the challenging world of hospitality and commercial cookery.

Our Certificate III Commercial Cookery program meets all the requirements of the VET Quality Framework (VQF) ensuring your Australian Apprentice will receive a Nationally Recognised Qualification on successful completion of their course.

ACCESS is a Registered Training Organisation (RTO) providing both accredited and non-accredited training courses in the Australian Capital Territory (ACT).

FLEXIBLE WORK-BASED TRAINING

Flexible work-based training involves the majority of training and assessment occurring in the workplace and not in a classroom. You as the employer (or your qualified representative) will act as the workplace supervisor for your Australian Apprentice and be responsible for the majority of their practical-based training (see practical-based training and assessment).

ACCESS’s primary responsibilities are to provide a qualified workplace assessor to facilitate the theory-based training component of the course and to assess the Australian Apprentice’s skills and knowledge against the requirements of the course.

To achieve their qualification, an Australian Apprentice will need to successfully complete both the theory-based and practical-based components of the course.

Certificate III in Commercial Cookery has twenty-five units (twenty-two core units and three elective units). Once all competencies have been achieved your Australian Apprentice will have earned their Certificate III in Commercial Cookery and the ability to perform the role of a Qualified Chef in a commercial kitchen environment.

Theory-based Training and Assessment
The theory-based component of the course will be performed using a combination of online and face-to-face delivery modes. Your Australian Apprentice will have regular contact with the workplace assessor and be issued with the most engaging interactive multimedia learning resources available (Didasko Learning Resources). These resources are available via our online platform, flash drive or hard copy.

Didasko learning resources include:
- All theory-based assessment tasks and tools;
- Pictures and video from real industry environments;
- Challenging and stimulating multimedia activities;
- Voice-overs for simulated workplace situations;
- Clear, understandable text;
- Simple functionality for accessing and navigating; and
Interactive guides that demonstrate features and show users how to navigate the resource.

You are required to allow your Australian Apprentice at least three hours per week to undertake the theory-based training activities and liaise with their workplace assessor.

Practical-based Training and Assessment
The practical-based component of the course will occur primarily on-the-job. The workplace supervisor is responsible for the practical skills training. The assessment component involves the workplace assessor collecting evidence from the Australian Apprentice to prove competency in all units that make up the qualification. The evidence collected can include workplace observation and demonstration activities, workplace supervisor reports and portfolios of workplace activities.
